Summary

The Downtown Dayton Partnership (DDP) and The Contemporary Dayton (The Co) are teaming together to enliven downtown streetscapes with **ArtWraps**, a new project to “wrap” utility boxes with original designs by area artists. Selected designs will be commercially printed and installed by project partner, Digital Fringe. The goals of the project are to employ the utility boxes as bold, colorful, surprise works of art throughout the area and contribute to the appeal of a friendly, welcoming downtown; and give local artists an opportunity to compete for commission and display of their work. Up to **15** designs will be chosen for this round of **ArtWraps**. **Each selected design will be awarded \$500.**

Design Guidelines:

- Designs may be representational or abstract; and/or be an all-over pattern like wallpaper or wrapping paper; and/or include words or phrases.
- If designs are primarily representational (for example: a landscape, city scene, figures in action), designs are encouraged to include multiple areas of interest so final display can be seen on all sides.
- Overall, designs should be positive, original, and colorful and may (but are not required to) reflect the following: Downtown points of interest, scenes from community history, images of favorite activities (for example: canoeing on Dayton’s rivers, listening to a live band at Levitt Pavilion, watching a Dayton Dragons Game or a Broadway show at the Schuster) or scenes from pure imagination.

- Utility boxes will vary in size. Selected artists acknowledge that printer may adjust designs to fit boxes properly including the possibility that some areas of artwork will need to be removed to allow for utility box function.
- Artists shall retain the intellectual property rights of the design. The artist's name should not be incorporated into the design; but will be reflected on the recognition plaque, and print and digital marketing materials.
- Full credit will be given to the artist in print or digital marketing; in turn, if utilizing the proposal for future submissions, the artist shall give credit to the project.
- Proposed artwork must be original and unique to the project.
- Designs shall not contain any kind of advertisements.
- Project organizers will match designs/box locations.
